The Health Care Summer Institute  
Program Description

University of Florida College of Medicine  
Office for Diversity & Health Equity

PURPOSE & DESCRIPTION

The Health Care Summer Institute (HSCI) is a four-week residential program sponsored by the University of Florida College of Medicine, Office for Diversity & Health Equity. The purpose of the program is to provide an academic enrichment opportunity to rising junior and senior high school students who are interested in entering health related fields such as medicine, dentistry, nursing, pharmacy, occupational and physical therapy.

HCSI participants have the opportunity to take an Introduction to the Health Professions course, attend educational lectures, shadow health care professionals, improve academic test taking skills in a series of SAT preparation courses, and participate in social and team building activities. Participants must live in the West Florida, Big Bend, Suwannee River or Northeast Florida Area Health Education Centers (AHEC) Network Areas.

As the HCSI is a residential program, participants are housed in one of the dormitories on the University of Florida campus in Gainesville, Florida. Participants are provided with all meals, Monday through Friday in the hospital cafeteria and on weekends, as part of a bonding activity, participants assist the HCSI staff with meal preparation. Participants are supervised by HSCI staff, except while they are shadowing a health care professional. Additional educational offerings take place in classrooms housed in the medical education buildings of the University of Florida College of Medicine.

PARTICIPANT REQUIREMENTS & RESPONSIBILITIES

In selecting the undersigned participant, the HCSI has relied on the participant’s confirmation that he or she meets the following requirements:

(1) Completed 10th or 11th grade.
(2) A minimum overall grade point average of 2.5 or higher.
(3) Comes from an economically and, or educationally disadvantaged background.
